- 2. True/False: Assessments must be based on the annual budget and study of reserves.
- 3. Assessments must be sufficient to cover ____ of the association.
- 4. What are the two basic types of accounts and what are they used for?
- 5. True/False: Operating and Reserve funds may be kept in the same account.

Reserve Funds

NRS 116.3115(2) & NAC 116.453

- ➤ The association's budget MUST include a budget for the reserves.
- The reserves may <u>only</u> be used for the repair, replacement and restorations of:
 - > the major components of the common elements and
 - right any other portion of the common-interest community (CIC) that the association is obligated to maintain, repair, replace or restore, including:
 - > roofs,
 - > roads and

Reserve Study

➤ A reserve study anticipates and prepares for major future expenses in an attempt to ensure that money is available when needed.

NAC 116.425(1)(q)(1)

- The projected life expectancy of the major components and the funding needs of the reserves of the association are based upon the association performing appropriate and preventative maintenance for each major component.
 - Failure to perform such maintenance can negatively impact the remaining useful life of the major components and dramatically increase the funding needs of the reserves of the association.

Reserve Study continued

NAC 116.425 & NAC 116.427

- The reserve study is a written instrument prepared by a reserve study specialist following their onsite inspection.
 - ➤ It assists the association in determining the amount of money needed to fund the Reserve Account over a 30-year projection.
- The executive board shall, at least once every 5 years, cause to be conducted a study of the reserves.
 - ➤ The 5-year period for conducting a reserve study begins the day the on-site inspection of major components begins.

Reserve Study: Funding Plan

NAC 116.425(2)

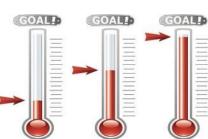

- ➤ The board SHALL at least annually, make any necessary adjustment to the funding plan to provide adequate funding for the reserves.
- ➤ By law, the reserve fund must be "adequately funded," meaning sufficient to maintain the common elements:
 - ➤ At the level described in the governing documents;
 - ➤ Without using operating funds; and
 - ➤ Without the use of special or reserve assessments.

Reserve Study: Funding Plan continued

NAC 116.425(2)

- ➤ Every association has different reserve requirements depending on the scope and timing of that association's reserve projects.
- ➤ Current "strength" of the Reserve fund can be determined by three calculations.

Reserve Study: Funding Plan continued

NAC 116.425

Full Funding:

the projected balance is equal to the fully funded balance of 100%; all money required to carry out reserve projects for that year is in the reserve account, ready to be spent.

Threshold Funding:

establishing a reserve funding goal of keeping the reserve balance above a specified percent funded amount [Ex. 75%]; less stringent than full funding and allows room to adjust the funding plan.

Baseline Funding:

objective of keeping the reserve cash balance at least above zero; most dangerous type of funding and typically leads to special assessments.

Knowledge Check

- 1. True/False: The association's budget MUST include a budget for the reserves.
- 2. True/False: Reserve funds are an emergency savings and may be used to offset shortfalls in the operating funds when needed.
- 3. Can a CAM be a signor on the reserve account?
- 4. How often must an association have a reserve study conducted?
- 5. By law, the reserve fund must be ____ funded.
- 6. What are the three funding plan levels?

Annual Budget

NRS 116.3102(1)(b)

- ➤ The association SHALL adopt, and MAY amend budgets.
- Fiscal Year (FY) budgets AND amended budgets require ratification by unit's owners, at a unit's owners meeting.
 - ➤ Meeting must comply with notice, agenda and minutes requirements of a unit owners meeting.

Annual Budget: Distribution

- ➤ Between 30 and 60 days before the beginning of the associations fiscal year (annually), the board SHALL prepare, adopt and distribute (by mail OR email) a copy of:
 - ➤ The budget for the daily operation of the association estimated annual revenue and expenditures.
 - The budget to provide adequate funding for the reserves, including:
 - ➤ The current estimated replacement cost and remaining life of each major component of the common elements;
 - ➤ The current estimate of cash reserves necessary, and the amount set aside to repair, replace or restore the components;
 - ➤ A statement as to whether the executive board anticipates that the levy of one or more special or reserve assessments will be necessary; and
 - ➤ A general statement describing the procedures used for the estimation and accumulation of cash reserves.

Annual Budget: Distribution continued

- ➤In lieu of distributing copies of the complete budget, the executive board may mail OR email to each unit owner's designated address a summary, accompanied by written notice that:
 - ➤ Complete budgets are available for review at the business office of the association or some other suitable location, not to exceed 60 miles from the community; and
 - Copies of the complete budget will be provided upon request.

Annual Budget: Distribution continued

- ➤ The executive board shall, at the same time that it sends out the budget, make available to each unit owner the collection policy including
 - ➤ any fees,
 - ➤fines,
 - >assessments or
 - costs that may be imposed against a unit owner if he or she does not pay amounts due in a timely manner.
