To the NV. Real Estate Commission I am apologetic that I am just now able to communicate to you. I have been going through some major health issues as well as personal. I am writing to you today because I missed my hearing back in May due to my health problems at that time I was in rehabilitation after having 9 surgeries and procedures. I have been healing and dealing with my ongoing health and personal issues. I am petitioning the board for a rehearing and I am also unable to pay any funds as I am pending disability currently. I have emails and information to uphold my case set before you. I value my real estate career and would not knowingly do anything to jeopardize it. I am not perfect but I can show cause for my actions and emails and texts that defend me in both cases. I was only doing as asked of me and along the lines individuals became upset and took it out on me. Please allow me the opportunity to defend myself and allow me to continue to do what I love thanks in advance.
