

NRED Licensing Guidance

License Renewals Due in May 2020 and Beyond

To Licensees:

All licenses, certificates, permits, and registrations due in **May 2020** and beyond must be renewed in **the month they are due. There are no additional extensions.** Processing of renewals and all other licensing transactions have resumed at the Division. Though the Nevada Real Estate Division remains closed to the public until further notice, all in-person services provided by the Division have been transitioned to mail, online, email or over the phone.

The initial temporary closure of the Nevada State Business Center in Southern Nevada on March 18, 2020 prevented the processing of license renewals in the mail. As a result of the temporary building closure and with an abundance of caution, the Division extended renewal payments for licenses, certificates, permits, and registrations due in **March** and **April** of 2020 to May 31, 2020.

The post-licensing education or continuing education that is required for the renewal of certain licenses, certificates, permits, and registrations in **March, April** and **May** of 2020 has been extended for 90 days from the expiration date.
