NEVADA COMMISSION OF APPRAISERS

mgallo

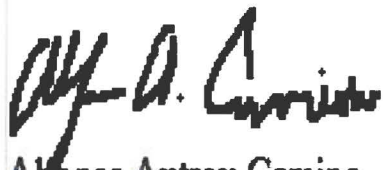

June 16, 2023

Dear Nevada Real Estate Commission

I need to request a Medical Emergency pause on the required payments. I have been diagnosed with sever blocked arteries to my heart. I'm currently doing a mission in the Philippines and I'm having a medical emergency. Recently while running up a flight of stairs I felt sever chest pains and after feeling a tightness in my chest for several hours I was rushed to a hospital nearby. At the hospital here in Cebu I had several test including an EKG, treadmill stress test and blood cholesterol test. My EKG was abnormal, I failed a treadmill stress test, and the blood test reveled I have very high cholesterol in my bloodstream. After the tests my cardiologist determined I have several blocked arteries to my heart and required I get Angioplasty as soon as possible and I must be prepared for several stents to be inserted into my arteries. I do not have any International medical insurance and very little savings. However, the cost for the procedure is much less here in the Philippines than in the US, so I have decided to have the procedure done here. I will need all my resources and help from my friends and family to be able to pay for the medical procedures. I have made a couple of payments to the commission for \$366.33, and fully intend to pay the fine. However, I need to request for a hold and an extension of 6 months added to my agreement to allow me the time to pay for my life saving emergency medical procedures now and time to recover. I have attached some medical documents and I pray to God for your approval and hope I will survive this life threatening medical emergency.

Please add me to the Commission of Real Estate Appraisers (CARE) meeting on July 18-20, 2023

Respectfully,

Alfonso Autrey Camino
