Information Regarding Adoption

Upon adoption of any regulation, the agency, if requested to do so by an interested person, either prior to adoption or within 30 days thereafter, shall issue a concise statement of the principal reasons for and against its adoption, and incorporate therein its reason for overruling the consideration urged against its adoption.

1. Purpose and need of the proposed regulations

The onset of new technologies to coordinate and conduct education classes has created a need for regulation regarding these practices. Language is being proposed to define 'live-instruction' and 'classroom' methods to provide some guidelines for education sponsors.

2. Terms of the proposed regulations

- Creates a definition for the term 'classroom'
- Creates a definition for the term 'live instruction'
- A definition for the term 'PAREA'
- Standards for insufficient fund transactions
- Requirements for intern experience hours
- Requirements for PAREA certification

- Requirements for intern attendance at commission meetings
- Standards for licensing reciprocity
- Standards for supervisory appraiser status
- Education requirements for renewal of certificate and/or license
- Amended instructor qualifications

3. Estimated Economic Effect

(a) Adverse effects:

The definition of Classroom is being expanded to include digital platforms and interactive media. The definition of Live instruction is also being expanded to include digital platforms and hybrid teaching modes. There should be no adverse effect on small businesses as there is no additional cost to the business or a requirement to change their current practices. There were no comments made suggesting an adverse financial effect on small businesses. There may be some costs to the business to upgrade technology systems in order to position themselves to provide the service. However, an increase in student participation and class accessibility due to a virtual platform may also provide additional revenue.

(b) Beneficial effects:

The changes to classroom and live instruction definitions will significantly benefit education sponsors as this allows them to take their existing courses and offer them in different live and classroom formats. This will streamline the course approval process and reduce the paperwork submitted with each course approval for the sponsors.

(c) Immediate effect:

Based on the changes to classroom and live instruction definitions, the Division anticipates a significant increase in courses submitted for approval and an increase in the number of courses offered in Pre and Continuing education.

(d) Long term effects:

These proposed changes will potentially increase the different options for business to provide education to licensees. This should increase the number of businesses in the education space and also attract new business into the industry. An increase in different teaching formats may increase visibility and student participation from licensees throughout the state. A hybrid classroom may contribute to greater shared learning of practices between licensees in rural and urban areas of the state.

4. Estimated Cost to the Agency.

There will be no additional cost to the agency for enforcement of LCB File No. T006-24.

5. Duplication with other Agencies:
